

SEAT ADAPTER KIT #88117 INSTALLATION INSTRUCTIONS

3015-03

ALL SPECIFICATIONS ARE SUBJECT TO CHANGE WITHOUT NOTICE

ROADMASTER, Inc. 6110 NE 127th Ave. Vancouver, WA 98682 360-896-0407 fax 360-735-9300 www.roadmasterinc.com

1. Locate the mounting post (Fig.1) that came with your BrakeMaster. If needed, order part number 450596. Now, secure the post to the center of the seat adapter using the included 3/8" x 3/4" bolt and 3/8" lock washer. If the hole is countersunk, use the Allen head bolt and lock washer included with this kit.

2. Remove the Phillips head screw holding the plastic seat track cover, and move the seat track cover to the side. Line up the seat adapter to the two seat track supports – top to top and left to right. With a punch, mark the center of the drilled holes in the seat support on both seat track supports. Drill a 3/8" hole through both points.

3. The mounting post is slightly offset, to align with the brake pedal. Check the alignment of the mounting post to the brake pedal, then set the seat adapter over the holes you drilled. Secure the seat adapter in place with one of the supplied 3/8" x 1 1/4" bolts, flat washers and nuts, on each side. Reposition the plastic seat track cover, and secure it with the Phillips head screw you removed in the preceding step.

Parts List

- (1) 3/8" x 3/4" bolt
- (1) 3/8" lock washer
- (2) 3/8" x 1 1/4" bolts
- (2) 3/8" flat washers
