Parts List
(1) 3/8" Lock Washer

Instructions

1. Before installing the seat adaptor, the mounting post (that was included with your BrakeMaster system) must be removed from the round plate (Fig.1). First, secure the round plate in a vise. Use a wrench to loosen the mounting post, while holding the bolt with an Allen wrench. Don't try to turn the Allen bolt with the Allen wrench, as you might damage the wrench or bolt. Use a 1/2" open-end wrench to twist the mounting post off. Then, secure the mounting post to the center of the seat adaptor, using the included 3/8" lock washer.
2. Remove the two 18mm seat track mounting bolts. Place the seat adaptor over the hole from which you removed the 18 mm bolts. Now, bolt the adaptor in place using the 18mm bolt you removed.

WARNING

Failure to follow these instructions can result in property damage, personal injury or even death.
