Parts List

- (1) 3/4" x 3/8" bolt
- (1) 3/8" lock washer

Instructions

1. Before installing the seat adaptor, the mounting post (that was included with your BrakeMaster system) must be removed from the round plate. Secure the round plate in a vise. Use a wrench to loosen the mounting post, while holding the bolt with an Allen wrench. Don't try to turn the Allen bolt with the Allen wrench, as you might damage the wrench or bolt.
2. Then, secure the mounting post to the center of the seat adaptor, using the included 3/4" x 3/8" bolt and 3/8" lock washer.
3. Remove the two 15mm front seat mounting bolts. Slide the seat adaptor over the top of the seat track, and re-install the two 15mm front seat mounting bolts

WARNING

Failure to follow these instructions can result in property damage, personal injury or even death.
