ROADMASTER, Inc. 6110 NE 127th Ave. Vancouver, WA 98682 360-896-0407 fax 360-735-9300 www.roadmasterinc.com

Parts List

- (1) 3/8" lock washer
- (1) 3/8" x 3/4" bolt
- (1) Allen head bolt

Instructions

1. Locate the mounting post (Fig.1) that came with your BrakeMaster. If needed, order part number 450596. Now, secure the post to the center of the seat adapter using the included 3/8" x 3/4" bolt and 3/8" lock washer. If the hole is countersunk, use the Allen head bolt and lock washer included with this kit.

This adapter is designed to fit several different vehicles. There are two holes in the seat adapter; test-fit the adapter against the seat tracks, and chose the hole that aligns most directly to the brake pedal. Then, secure the mounting post to the seat adapter, using the included 3/4" x 3/8" bolt and 3/8" lock washer.

2. Remove the two 15mm (head) bolts holding the seat tracks to the floor (one on each side). Position the seat adapter over the top of the sat tracks, so that the pre-drilled holes at end are over the holes for the seat track bolts you just removed. Then, bolt the seat adapter in place, using the 15mm factory bolts.

WARNING

Failure to follow these instructions can result in property damage, personal injury or even death.
