## Instructions

**1.** Locate the mounting post (Fig.1) that came with your BrakeMaster. If needed, order part number 450596. Now, secure the post to the center of the seat adapter using the included 3/8" x 3/4" bolt and 3/8" lock washer. If the hole is countersunk, use the Allen head bolt and lock washer included with this kit.

**2.** Slide the seat all the way back. Place the seat adapter under the forwardmost pre-existing holes in the seat track. Note: position the adapter so that the mounting post (Fig.1) is directly in line to the brake pedal. The BrakeMaster air cylinder may jam or function incorrectly if the mounting post is not directly in line with the brake pedal.

Now, bolt down through the seat track and seat adapter using the supplied 8mm x 1.25 x 20mm bolts. Finish with the 8mm washers, 8mm lock washers and 8mm x 1.25 nuts (Fig.2).

**3.** Attach the air cylinder to the adapter.
