

# SEAT ADAPTER KIT #88320 INSTALLATION INSTRUCTIONS

5440-02

ALL SPECIFICATIONS ARE SUBJECT TO CHANGE WITHOUT NOTICE

ROADMASTER, Inc. 6110 NE 127th Ave. Vancouver, WA 98682 360-896-0407 fax 360-735-9300 www.roadmasterinc.com

## Instructions

**1.** Locate the mounting post (Fig.1) that came with your BrakeMaster. If needed, order part number 450596. Now, secure the post to the center of the seat adapter using the included 3/8" x 3/4" bolt and 3/8" lock washer. If the hole is countersunk, use the Allen head bolt and lock washer included with this kit.

**2.** Push the seat all the way back and remove the two seat track covers and two 14mm (head) bolts (Fig.2).

**3.** Lift the seat up and slide the seat adapter under the seat track and over the mounts. Bolt down through the seat track and seat adapter and into the floor on each side using the supplied 10mm x 1.25 x 40mm bolt, 10mm lock washer and 3/8" flat washer (Fig.3).

*Note:* to assist in alignment over the front seat track mounts, it may be necessary to remove the rear seat track covers and the two 14mm (head) bolts.

*Note:* make certain to position the adapter so that the mounting post is directly in line to the brake pedal. The BrakeMaster air cylinder may jam or function incorrectly if the mounting post is not directly in line with the brake pedal.

**4.** Attach the BrakeMaster to the brake pedal and to the seat adapter. Adjust the length of the air cylinder assembly per the BrakeMaster installation instructions, ensuring that the BrakeMaster is pulling back on the brake pedal so the pedal is only depressed when the brakes are engaged at the motorhome. Failure to adjust the assembled length of the BrakeMaster may result in severe brake system damage and/or complete failure of the brakes.

## Parts List

- (2) 3/8" flat washers
- (2) 10mm lock washers
- (2) 10mm x 1.25 x 40mm bolts
- (1) 3/8" lock washer
- (1) 3/8" x 3/4" bolt

**WARNING**

Failure to follow these instructions can result in property damage, personal injury or even death.
