

How To Determine Axle Diameter and Capacity

1. Most axles have an identification tag with the axle capacity and axle diameter.

2. Measure the axle diameter or circumference.

SHOCK KIT	AXLE DIAMETER	AXLE CIRCUMFERENCE
2450	2 3/8"	Approx. 7.5"
2460	3"	Approx. 9.5"
2470	3.5"	Approx. 11"

3. Contact the RV manufacturer to decode your VIN to determine axle diameter and capacity.
