

# SEAT ADAPTER KIT #88359 INSTALLATION INSTRUCTIONS

6129-00

ALL SPECIFICATIONS ARE SUBJECT TO CHANGE WITHOUT NOTICE

ROADMASTER, Inc. 6110 NE 127th Ave. Vancouver, WA 98682 360-896-0407 fax 360-735-9300 www.roadmasterinc.com

## Instructions

1. Locate the mounting post (Fig.1) that came with your BrakeMaster. If needed, order part number 450596. Now, secure the post to the seat adapter using the provided hole and the included 3/8" x 3/4" bolt and 3/8" lock washer. If the hole is countersunk, use the Allen head bolt and lock washer included with this kit.
2. Move the seat back as far as it will go. On each side, remove one 14mm seat track bolt (Fig.2).
3. Lift up on the bottom of the seat to allow clearance to slide the seat adapter under the seat tracks, ensuring that the slotted end is toward the driver's side seat track. Then, replace the bolts you removed in step 2, starting with the passenger side bolt. Figure 3 shows the finished installation.
4. Attach the air cylinder to the adapter. *Note:* the mounting post on the adapter (Fig.1) must be directly in line to the brake pedal. The BrakeMaster air cylinder may jam or function incorrectly if the mounting post is not directly in line with the brake pedal.

### Parts List

- (1) 3/8" x 3/4" bolt
- (1) 3/8" lock washer

### IMPORTANT

**Once the seat adapter has been installed, carefully run the seat through its full range of motion. If it is impeded in any way, immediately stop and correct the interference. Failure to do so may result in non-warranty property damage.**

**WARNING**

Failure to follow these instructions can result in property damage, personal injury or even death.
