Until specified only finger tighten all bolts and nuts.

1. Locate the mounting post (Fig.A) that came with your BrakeMaster. If needed, order part number 450596. Now, secure the post to the seat adapter using the included 3/8" x 3/4" bolt and 3/8" lock washer.

1. Using a T50 torx, remove the two front seat bracket bolts and loosen the two in the rear (Fig.B).

2. Tilt the driver's seat back slightly to allow access to under the seat. Slide the Seat Adapter bracket under the rails (Fig.C).

3. Now replace the T50 Torx (Fig.D).

4. Attach the BrakeMaster to the brake pedal and to the seat adapter. Adjust the length of the air cylinder assembly per the BrakeMaster installation instructions, ensuring that the BrakeMaster is pulling back on the brake pedal so the pedal is only depressed when the brakes are engaged at the motorhome. Failure to adjust the assembled length of the BrakeMaster may result in severe brake system damage and/or complete failure of the brakes. Now, tighten all bolts.

IMPORTANT

Once the seat adapter has been installed, carefully run the seat through its full range of motion. If it is impeded in any way, immediately stop and correct the interference. Failure to do so may result in non-

Installation
